Colombia Unleashed: A Nature Expedition

Identity card

Tailor-made trip. Departures available all year round.

Suggested departure days: Saturdays.

Duration: 18 days

This is a journey through Colombia for those who identify as travelers, not tourists.

An incredible adventure through some of Colombia's most remote landscapes, exploring jungles, plains, deserts, beaches, and mountains while interacting with indigenous and peasant communities from different regions of the country.

With a bit of luck, you'll be able to see pink dolphins, monkeys, flamingos, and deer. You'll try Amazonian and Caribbean fish, papayas, mangoes, pitayas, mangosteens, and all sorts of tropical fruits. You'll learn to play cumbia drums, hang hammocks, and, if you're up for it, even speak a few words of Wayunaiki.

You'll enjoy not having WiFi for days, bathing in jungle rivers, and dancing to ancestral dances and songs.

And best of all, you'll be supporting dozens of families who, through sustainable and small-scale tourism, complement their income from farming, agriculture, and fishing while valuing and sharing their natural and cultural heritage.

Day 2: Bogotá

Tropical Fruit Safari: Exploring Paloquemao Market in Bogotá: This tour is the best aperitif to fall in love with Colombia, to discover the flavor of its culture and all that it has to offer.

Thanks to its geographical location, in Colombia it is possible to find a great variety of fruits of all colors, sizes and flavors (if you don't believe us, you can check it in the fruit dictionary that we will give you at the beginning of the tour). In addition to knowing the secrets and history of this market, passing through the colorful "plaza de las flores" and the craft stalls, you can try fifteen different fruits, three shots of fresh juices and two typically Colombian snacks.

During the tour you will not only taste fruits, this is an experience that leads you to have a real contact with the history of this wonderful country through the senses, the kindness of its people and the joy that characterizes them.

The duration of the tour is approximately 2-3 hours and we recommend taking this tour as your breakfast of the day.

Bogotá's essential city tour: On this half-day tour we will visit Bogotá's historical center at La Candelaria neighborhood, passing through its main sights. We will visit the Plaza de Bolívar, where the headquarters of national and local government are located, also the Congress and the Justice Hall as well as the city's Catedral Primada. The tour continues walking this colonial area until reaching the Gold Museum, which has an impressive collection of pre-Columbian goldsmiths from Colombia's native communities. We will finish at the Museo de Botero, an interesting art collection that was donated to the city by the renowned Colombian painter Fernando Botero.

Gold Museum is closed on Mondays and Botero Museum on Tuesdays.

VIP Visit to Monserrate Sanctuary: Included a visit to the Monserrate Sanctuary. Located at 3.150 m.a.s.l., this sanctuary is accessible by cable car or funicular and apart from being a very famous pilgrimage site in Colombia, it offers a spectacular panoramic view of the city.

The VIP pass allows faster access to the cable car/funicular and saves time when there are crowds of visitors.

Hotel BH Bicentenario - Standard Room: Lodging at BH Bicentenario hotel in Standard room with breakfast included.

Included: excursion, bilingual guide, snack, local guide, entrance fees, lodging, breakfast

Day 3: Bogotá

Visit to Chingaza National Park

The Chingaza National Natural Park is a protected area located only a couple of hours away from Bogotá, where it is possible to be in one of the best preserved and most beautiful *páramos* in Colombia. These unique tropical ecosystems are water factories and reservoirs, inhabited by several species of plants and animals such as *frailejones* or spectacled bears.

The excursion starts early in the morning heading towards the northeastern part of the city, in a route where after about 1 hour you can glimpse the rural landscape of the Sabana de Bogotá and the Eastern Andes. The hike begins from the Park's entrance through the municipality of Guasca at 3,200 m.a.s.l., and will take about 4 hours walking approximately 12 kilometers through the forest and ascending to 3,700 m.a.s.l.

We will pass through the Lagunas de Siecha, where the Muiscas performed offering ceremonies such as those described in the El Dorado Legend, and where in fact several gold pieces were found and extracted after several drainages. During the tour you can admire *frailejones*, deer, several species of birds and with some luck, even spectacled bears.

In the afternoon, return to Bogotá.

There are two big lagoons: the Ciénaga de Juan Polo and the Ciénaga de la Virgen. Different species of fish can be caught in these lagoons and the fishermen use their own traditional technique of fishing. They catch sea bass (*ro'baló*), shad (*sa'baló*), common two-banded sea bream (*mojarra*), ocean-bass (*pargo negro*), mullet (*lebranche*), as well as sea snails, clams, shrimp, crawfish and lobster. Three common techniques are generally used: fishing line, nets and traps.

For about 2-3 hours, we will fish in the lagoon (don't forget to bring a hat, sunscreen and mosquito repellent!). The fishermen will explain how to use the fishing line, how to throw

the fishing net and how to position the traps in order to catch shrimp and crawfish. You can keep your catch! If you would like to eat the fish and crabs you have caught, we can go to one of the fishermen's house to cook and have lunch together.
